## SUMMARY

I am a passionate and results-driven Software Developer with a strong focus on building efficient, user-friendly, and scalable web applications. I take pride in writing clean, maintainable code and constantly seek to improve my skills through learning new technologies and solving real-world problems. My main strengths include JavaScript, Node.js, Express, dart, firebase, postgres sql and front-end frameworks like React, nextjs and also flutter for mobile application combined with solid experience in working with APIs, databases, and cloud services.

My goal is to contribute to innovative projects that make a real impact while continuing to grow as a full-stack developer. I am particularly interested in developing secure, high-performance applications and collaborating with diverse teams to deliver outstanding user experiences. In the long term, I aim to lead or contribute to projects that bridge technology and creativity helping businesses and communities through smart, modern software solutions.

## WORK HISTORY

### Ehizua hub IT center | Benin city Nigeria

IT teacher      february 26 2024 to september 26 2024

### Ehizua Hub – Benin City, Nigeria

During my IT training period at Ehizua Hub, I worked as a **Tech Instructor**, where I played a key role in teaching and mentoring students in front-end web development. I focused on empowering learners with both technical knowledge and problem-solving skills required to build modern web interfaces.

### Key Responsibilities & Achievements:

Delivered comprehensive lessons on **HTML, CSS, and JavaScript**, covering the fundamentals of structure, styling, and interactivity for web development.

Taught students how to create **responsive and accessible websites**, using real-world examples and project-based learning approaches.

Assisted learners in building, testing, and deploying **functional web pages** using version control tools like Git and responsive frameworks.

Provided **one-on-one mentorship**, debugging support, and practical guidance to help students overcome coding challenges and strengthen their logical thinking.

Encouraged best practices in **clean code, semantic HTML, modular CSS, and DOM manipulation** with JavaScript.

Collaborated with other instructors to **develop structured course materials and workshop outlines**, ensuring content stayed up to date with modern front-end standards.

Promoted a **positive and engaging classroom environment**, motivating students through teamwork, collaboration, and project showcases.

Helped introduce new learners to the world of technology by simplifying complex programming concepts into easy-to-understand examples.

Supported the Hub's mission of **expanding digital literacy** and helping young people in Nigeria develop employable tech skills for the modern workforce.

### Key Skills Gained:

Front-End Development • Teaching & Mentorship • Responsive Web Design • Curriculum Design • JavaScript Fundamentals • Classroom Management • Team Collaboration

## EDUCATION

### BENSON IDAHOSA UNIVERSITY | Benin city, Nigeria

Degree Type: Bachelor's Degree

Field of Study: Computer Science

Start Month / Year: october 2021

Grad Month / Year: september 2025

Scores: **CGPA 3.28 second class lower**

Throughout my academic journey, I maintained an excellent record of good behavior, discipline, and dedication to my studies. I was known for being respectful, responsible, and hardworking, consistently demonstrating integrity and a positive attitude toward both my lecturers and fellow students. I actively participated in group projects, maintained punctuality, and showed strong teamwork and leadership qualities. My commitment to learning, coupled with a calm and cooperative demeanor, earned me the respect of my peers and the trust of my instructors. I take pride in upholding

strong moral values, maintaining focus on my goals, and representing my institution with dignity and good character.

## SKILLS

### Technical Skills

**Front-End Development:** Skilled in building responsive and dynamic user interfaces using **HTML**, **CSS**, **Tailwind CSS**, **Bootstrap**, **JavaScript**, **React**, and **Next.js**.

**Back-End Development:** Experienced with **Node.js** and **Express.js** for creating scalable server-side applications and RESTful APIs.

**Mobile Development:** Proficient in **Dart** and **Flutter** for developing cross-platform mobile applications with smooth UI and high performance.

**Database & Cloud:** Knowledgeable in **PostgreSQL** and **Firebase** for database management, authentication, and real-time data handling.

**API Integration:** Skilled in building and integrating **RESTful APIs** to connect front-end and back-end systems efficiently.

**Version Control & Collaboration:** Experienced with **Git** and GitHub for source code management, team collaboration, and deployment workflows.

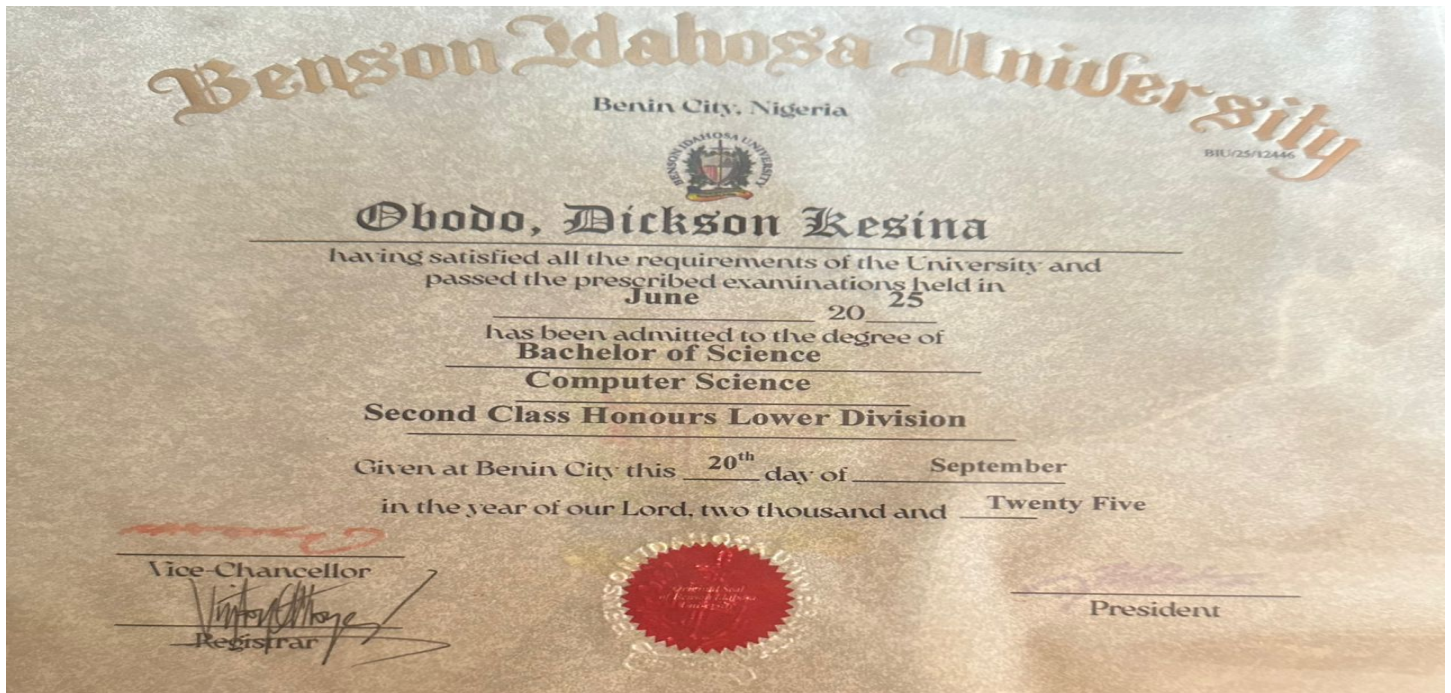

**Ongoing Learning:** Continuously expanding my expertise in **full-stack development**, **artificial intelligence (AI)**, and **modern frameworks** to stay up to date with emerging technologies and industry best practices.

## CERTIFICATES

Certificate Name: Bachelor of science (B.Sc.) COMPUTER SCIENCE

Issued by: Benson idahosa university
